

# How to edit your hunter report from your online account

All hunters that purchase or are issued a tag to hunt elk, deer, bear, wild turkey, wolf/coyote or a moose licence must complete a mandatory hunter report even if they did not participate in the hunt or harvest an animal.

Hunter reports must be completed from your online account or by calling the automated telephone line at 1-800-288-1155. For step-by-step instructions on how to submit your hunter report, please reference the **How to submit your hunter report** tip sheet.

If you have submitted a hunter report and need to make a change or add additional information to an already completed report, you can edit your hunter report only online through the Fish and Wildlife Licensing Service up until the reporting deadline.

Follow these steps to edit your submitted hunter report:

**Hunter Reporting**

**Reminder:** You should not complete a hunter report until you are done hunting for that species and season. In most cases hunters have 14 days from the end of the season to complete their report. For example, spring turkey hunters should not complete their spring report until they are completely done hunting turkeys in the spring. Additional information is available in the Hunting Regulations Summary.
