LIO Class Description

Provincially Tracked Species 1KM Grid

Class Short Name: PROVTRKG

Version Number: 1

Class Description:

This 1km x 1km grid is referenced by the Natural Heritage Information Centre to provide supplemental information and links about provincially tracked species, wildlife concentration areas, and plant communities. Only 1 km grid squares having associated species occurrence data records covering that geographic area will be featured in this layer. The scope of data class sources used to derive this information includes: 1) Species Occurrence, Provincially Tracked (SPEOCCPT) 2) Wildlife Concentration Area, Provincially Tracked (WCAOCCPT) 3) Plant Community Occurrence, Provincially Tracked (PCOCCPT) Note: The spatial data for this layer is derived from the UTM 1KM Grid (UTM1KM) spatial data class. A 1km x 1km Universal Transverse Mercator (UTM) grid that is a standard reference index for Ontario. This data class will primarily support the NHIC Biodiversity Explorer II application.

Abstract Class Name: NONSPATIAL

Abstract Class Description:

A tabular-only recordset that can exist independently, but MAY be associated to a spatial feature. Example: "Observation Collection Project, Caribou", where metadata about a project can be associated to mapped Caribou observations.

System generated identifier, unique at the application level.				
UTM_ZONE	NUMBER(2,0)	Yes	UTM_ZONE	
A geographic reference zone within the province. The Earth is divided into 60 UTM zones running west to east from the Central Median in 6 degree longitudinal strips extending from 80 degrees South latitude to 84 degrees North latitude. In Ontario the 4 zones are 15, 16, 17 and 18.				
EASTING_LOWER_LEFT_CORNER	NUMBER(6,0)	Yes	EASTING

The UTM NAD83 Y-coordinate or Northing in the lower left corner of a full grid square.				
MGRS_NAD83_IDENT	VARCHAR2(9)	Yes	MGRS_83	
A unique identifier that identifies a specific Military Grid Reference System (MGRS) grid cell. (e.g. 17TPM7017). See http://maps.nrcan.gc.ca/topo101/mil_ref_e.php for additional information.				
ATLAS_NAD83_IDENT	VARCHAR2(8)	Yes	ATLAS_83	
A unique identifier that identifies a specific grid cell. (e.g. 17PM7017) Although similar to the Military Grid Reference System the Atlas Identifier does not include the Grid Zone Designation (e.g. T) typical of the Military Grid Reference System and is considered a derivative. See http://maps.nrcan.gc.ca/topo101/mil_ref_e.php for additional information.

Indication of a grid cell contained in whole or in part within the jurisdictional boundary of the province of Ontario.
